

EZ Stand

Stand-up Pouches Made Easy

Today's consumers prefer flexible, stand-up pouches to traditional, rigid packaging. They not only provide an added convenience, but also advantages such as: ease of opening, product visibility, sustainability, and higher perceived value. Processors prefer stand-up pouches because of reduced transportation costs, greater fill versus pillow bags, and they take up less space in a warehouse.

If you are looking for an affordable alternative to pre-made stand up pouches, EZ-Stand can be produced using your existing vertical form fill and seal lines.

BENEFITS:

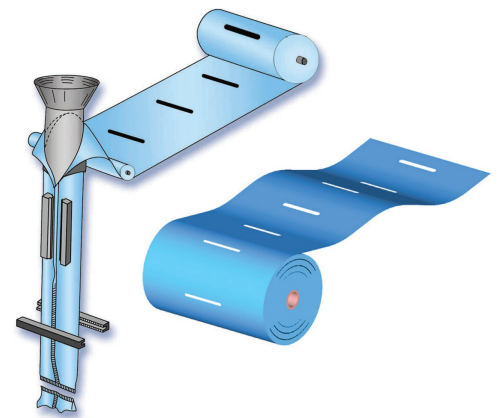

- Produce stand-up pouches with VFFS machinery
- Minimal cost to convert existing VFFS machinery
- Increased operating flexibility
- Simple and efficient change over between EZ-Stand and pillow bags

FEATURES:

- Stand-Up presentation
- Can be combined with Inno-Lok® recloseable zippers
